Figures are supplied painted with grey etch primer. They are also available fully hand painted. Painted figures are cleaned, assembled where necessary, and hand painted using the finest acrylic paints, then given a coating of matt varnish to protect them from handling. Some of the quoted "painted" prices include a charge of \$2.00 where the figure requires assembly prior to painting.

PAYMENT

International orders may be acquitted by PayPal. You do not need to have a PayPal account in order to pay an invoice, but you do need an internet connection and Internet Banking facility.

Please enter your desired items in the list on Page 4 (or use separate piece of paper). You may enter the quantity of each figure, plus its price (either undercoated, or fully painted). If you select PayPal as your method of payment, you will be sent a PayPal Invoice via email as soon as your order is filled and ready to ship (you must have an internet connection for this method of payment). We will total the cost of figures ordered, plus 3.25% bank fees for international exchange, plus the actual cost of posting your items to you. As soon as we receive an email from PayPal advising that the bill has been paid, we will ship your products out same day.

Please note. I NOW DO NOT ACCEPT EITHER VISA OR MASTER CARD PAYMENTS DIRECT, as the sum of bank fees and charges made by card companies, just to make card facilities available was costing me \$640 per annum, before being charged a % for each transaction processed. No More! If you want to use your credit card to make a purchase, then PayPal is safe, secure, quick and easy... and cheaper in the long run.

Within Australia we prefer payment to be made by electronic funds transfer (direct deposit) using:
Mountain Blue Miniatures
National Australia Bank
BSB 082 760
A/C No: 58 546 8900

Payments are also welcome by Postal Money Order, or Australian Cheque.
